

18th ESSKA Congress 9 – 12 May 2018, Glasgow, Scotland, UK

Fares Haddad

Orthopaedic surgeon at University College Hospital, London, UK

As close to an Englishman as the committee could find.

He is an all-rounder with a hand in many clinical and academic pies.

Fares first decided to try his luck on the Rugby pitch and after sustaining a glut of injuries switched to the medical side.

Fares is clinically and scientifically active; as a scientific chairman of the ESSKA Congress in Glasgow 2018 he is committed to facilitating high level basic research with carefully evaluated translation for clinical benefit.

His focus is to ensure that innovation in the sports arena is driven by data and evidence rather than hype.

Main topics in practice: Hip, knee and muscle/tendon injuries of lower limb / pelvis.

Congress President

Jón Karlsson, MD
Sweden

Congress Scientific Chairmen

Gino M. Kerkhoffs, MD
